## REAL ID Act – Title II

# H.R. 1268

### IMPROVED SECURITY FOR DRIVERS' LICENSES AND PERSONAL IDENTIFICATION CARDS

Secure driver's licenses and identification documents are a vital component of our national security framework. The REAL ID Act, passed by Congress in 2005, enacted the 9/11 Commission's recommendation that the Federal Government "set standards for the issuance of sources of identification, such as driver's licenses." The Act established minimum security standards for license issuance and production and prohibits Federal agencies from accepting for certain purposes driver's licenses and identification cards from states not meeting the Act's minimum standards. The purposes covered by the Act are: accessing Federal facilities, entering nuclear power plants, and, no sooner than 2016, boarding federally regulated commercial aircraft.

This pamphlet lists states not in compliance, states in compliance, and states who have approved extensions for implementation and the required implementation dates. It also lists acceptable forms of identification if you do not have an Enhanced Drivers License from your state.
